

A modern living room interior featuring a large, light-colored stone wall as a focal point. A light beige sectional sofa is positioned in front of the wall. A dark, geometric coffee table sits on the floor. To the left, a white kitchen island with a black countertop holds a potted plant. A large window on the right side of the room provides natural light. A black semi-transparent box is overlaid on the right side of the image, containing the text 'MY TILES' and 'CATALOGUE'.

Tile Art

What is Tile Art?

Each collection offers the elegance of sophisticated designs & uniqueness of artistic work that is bursting with creativity so you can be welcomed in a heartwarming environment.. Many modern tile art designs are based on abstract and pattern-based designs. These are non-representational, unlike than older tile art formats, such as mosaics, which were often portraits or other representational forms of artwork. The design on a piece of tile art may be used as decoration, but may also represent an idea, philosophy or pose a historical, religious or social significance

DESCRIPTION OF TILES:

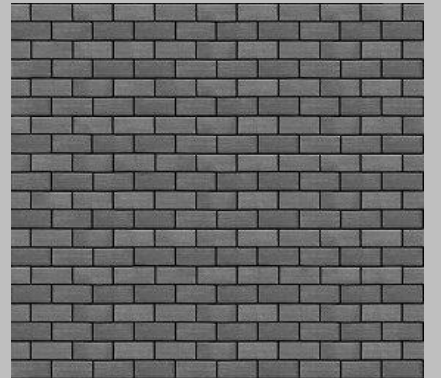

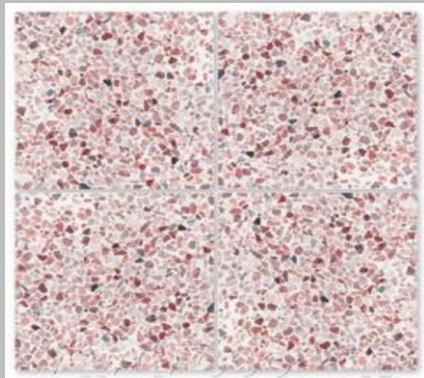

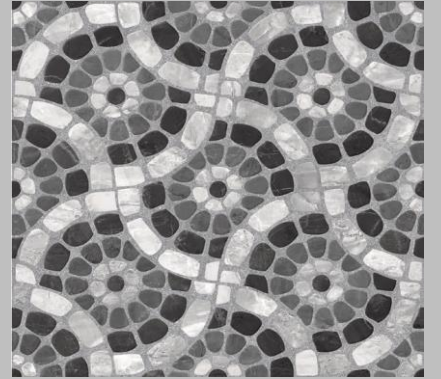

Tiles are usually thin, square or rectangular coverings manufactured from hard-wearing material such as [ceramic](#), [stone](#), metal, baked clay, or even [glass](#). They are generally fixed in place in an array to cover roofs, floors, walls, edges, or other objects such as tabletops. Alternatively, tile can sometimes refer to similar units made from lightweight materials such as [perlite](#), [wood](#), and [mineral wool](#), typically used for wall and ceiling applications. In another sense, a tile is a construction tile or similar object, such as rectangular counters used in playing games .
